Summary

I am very passionate about the field of Software Development and, I have skills in Object Oriented Programming, Databases such as MS SQL Server and, languages such as C++, C# and, JavaScript.

Education

Bachelor of Business information Systems, Tanta University

Grade: Excellent

2023 - 2027

Certificates & Courses

- C# Programming Level 2
Provider: Programming Advices
Year: 2024
 - Database – SQL (Projects & Practice)
Provider: Programming Advices
Year: 2024
 - Algorithms & Problem-Solving Level 4
Provider: Programming Advices
Year: 2024
-

Skills

Technical Skills

- .Net core
- C++
- Backend development
- Web development
- Windows forms
- Tailwind
- Next JS

Soft Skills

- Leadership.
- Time Management.
- Strategic Planning.
- Communication.
- Problem Solving.
- Teamwork.

Languages

- Arabic (Native).
- English (Fluent).

Projects

- A fully developed DVLD (Driving and Vehicle Licensing Department) System built using C#, SQL Server, and ADO.NET, following a 3-tier architecture for modularity, scalability, and maintainability. This system is designed to manage driver licensing efficiently. [[Link](#)]
- Simple Bank System in C++ (Console App) Using OOP & Separation of Concerns, with a clean and efficient Bank Management System as a console-based application in C++, following Object-Oriented Programming (OOP) principles and Separation of Concerns (SoC) for better maintainability. [[Link](#)]
- Developed a Simple Math Game using C++ as a console-based application, adhering to Separation of Concerns (SoC) principles for clean and maintainable code. The game generates random arithmetic questions (addition, subtraction, multiplication, division) and tracks the player's score based on correct answers. [[Link](#)]

Personal Information

- Date of Birth: 09/09/2004.
- Military Status: Postponed.
